The background of the slide is a light gray gradient, decorated with numerous realistic water droplets of various sizes. Some droplets are at the top left, some are scattered in the middle, and a larger cluster is at the bottom right. The droplets have highlights and shadows, giving them a three-dimensional appearance.

IABC Regina - Website Development Meeting 2 (March 1)

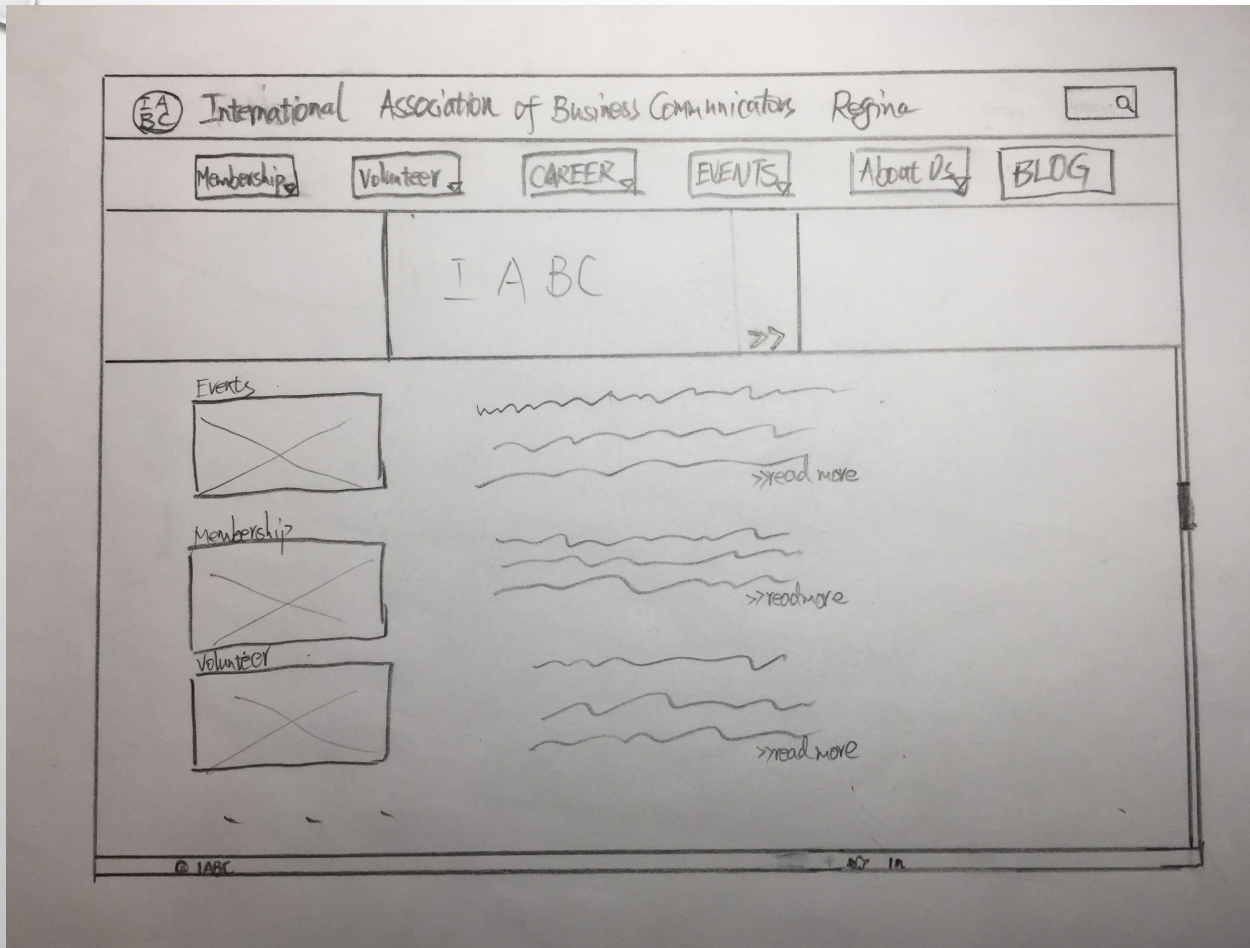

BY BULBUL ARORA, XIA HUA, LI PAN

Overview

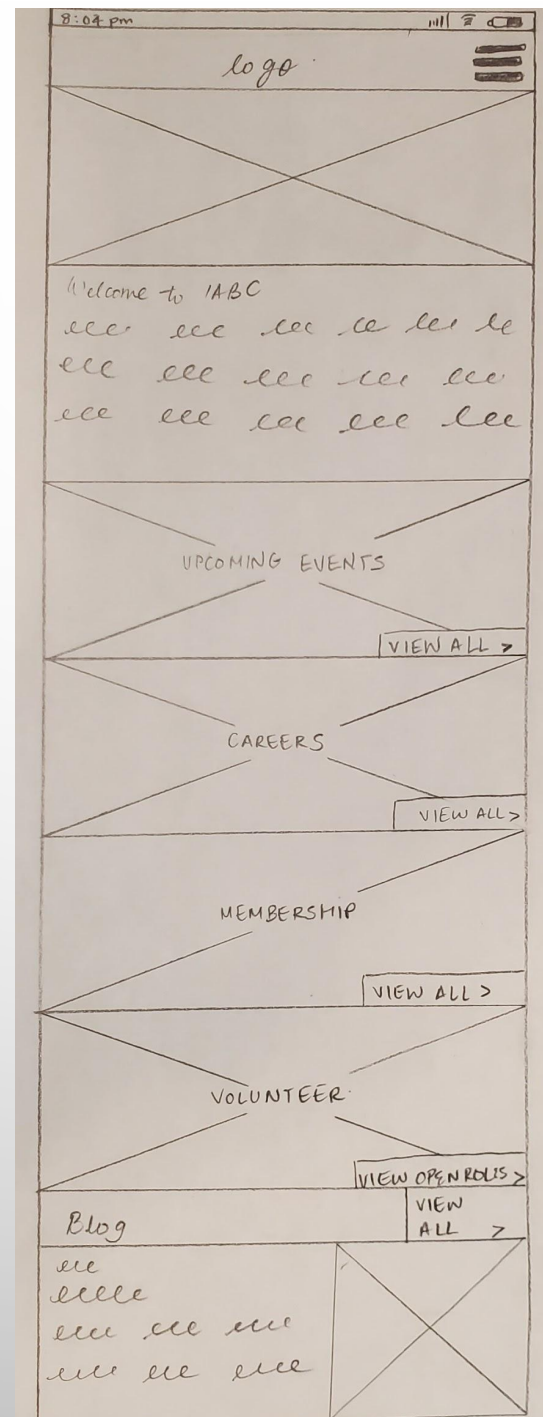

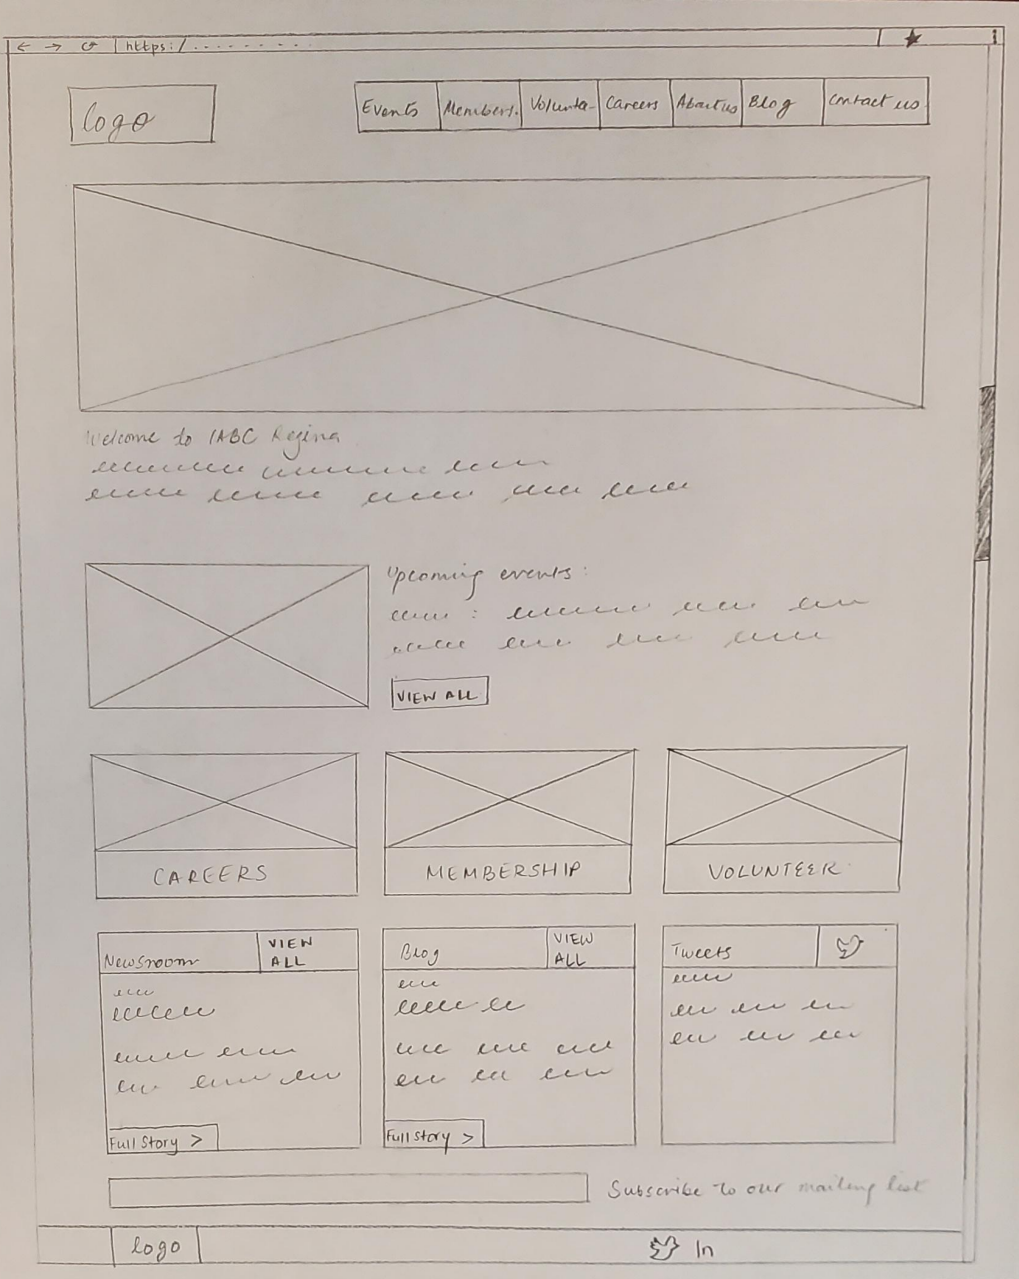

- Get feedback on some very early stage designs(created on paper.)
 - Feedback/ Questions.
- 

Home Page Design #1

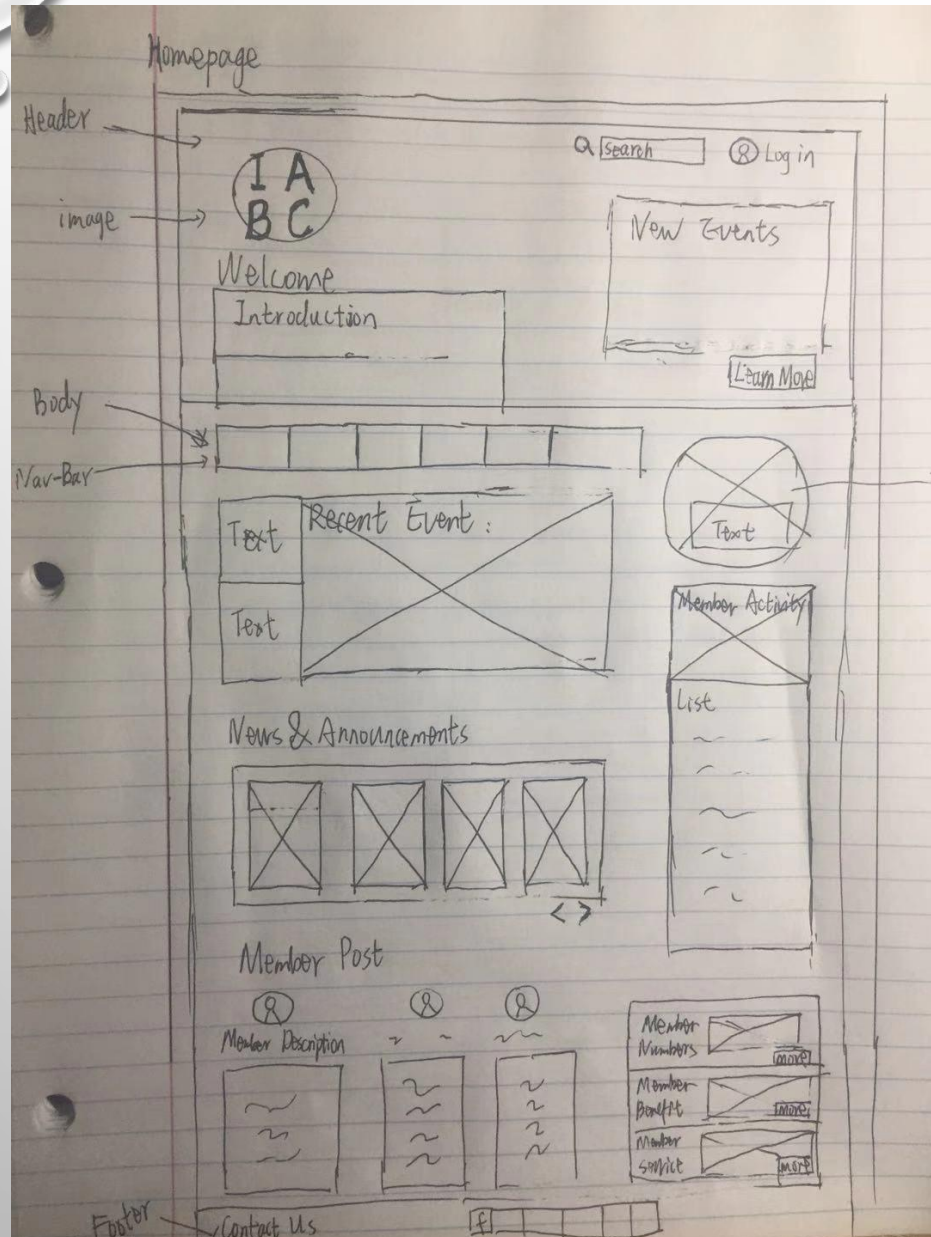

- The top nav bar has drop down menu, and the menu bar section keep for every web page.
- Twitter and other social media will be moved into the footer section on each web page.
- The home page also has main sections from the navigation bar so users can click on the “read more” button to expand those further.
- Decided to keep the search bar so people can look up specific information faster.

Home Page Design #2

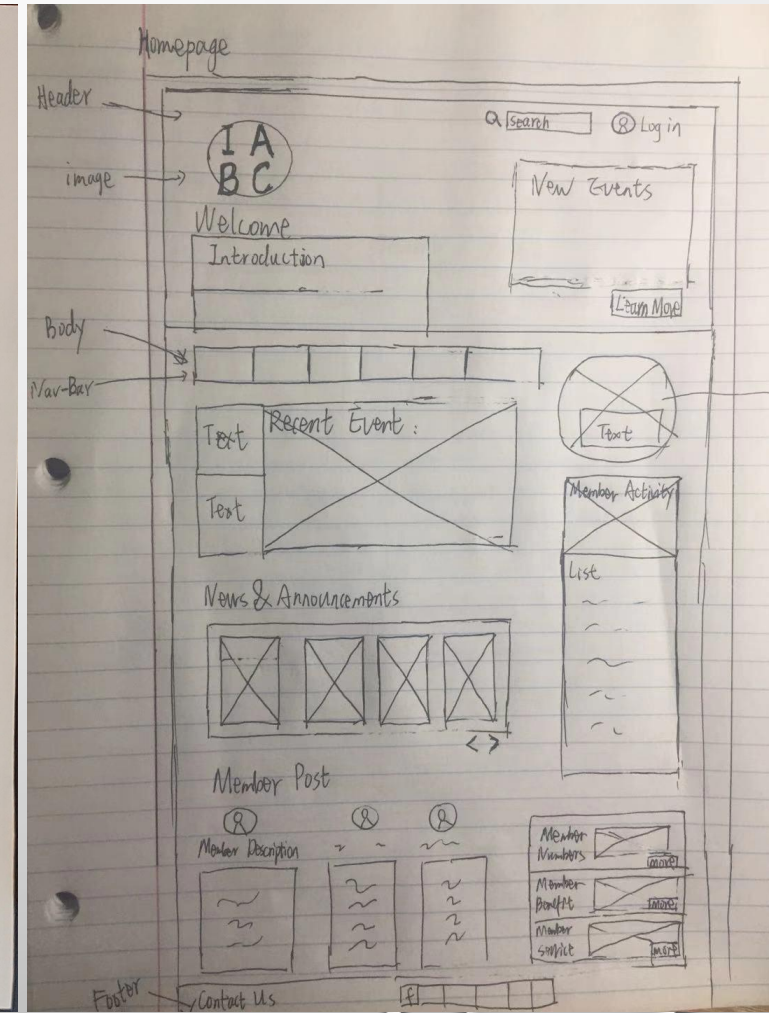

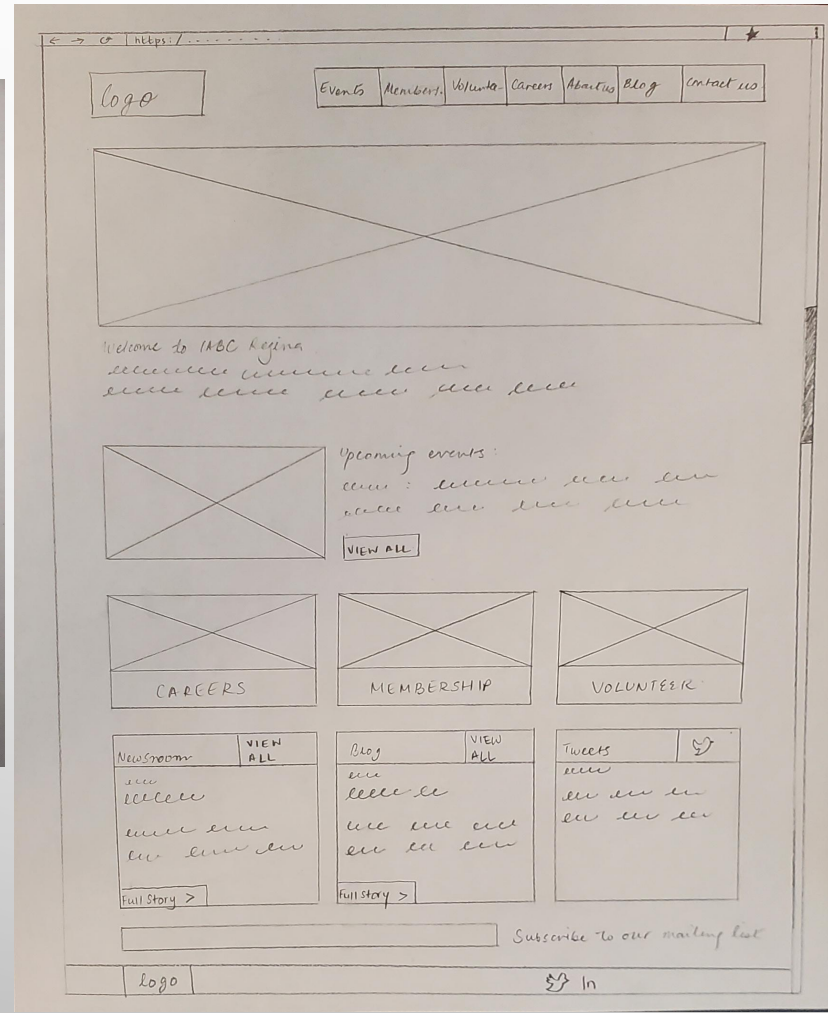

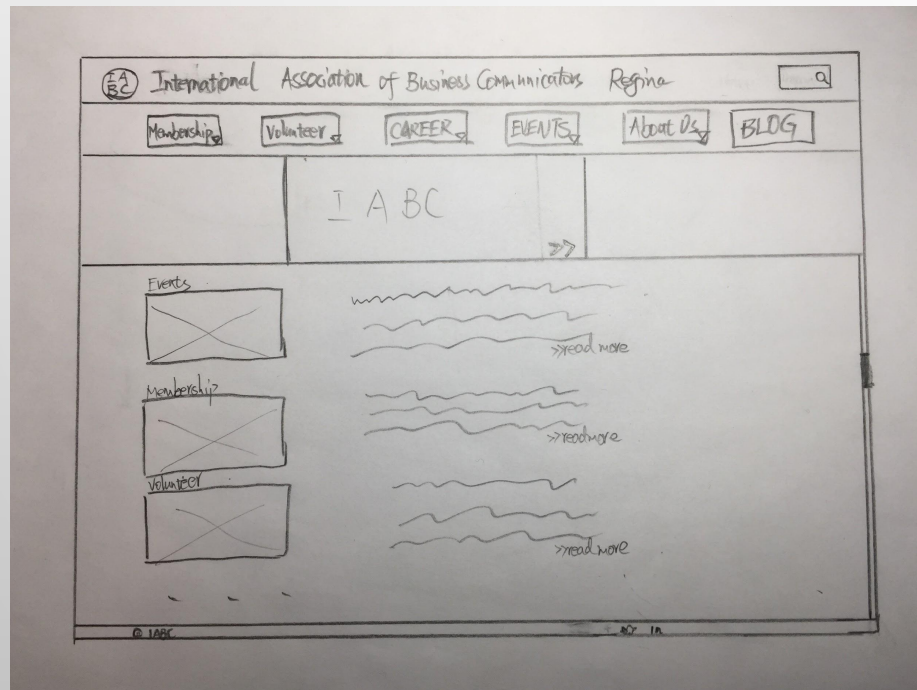

- The top navigation has a drop down menu
- The careers, membership and the volunteer pages are all clickable.
- Next, we have snippets of the newsroom, the new “blog” feature and the twitter feed.

Home Page Design #3

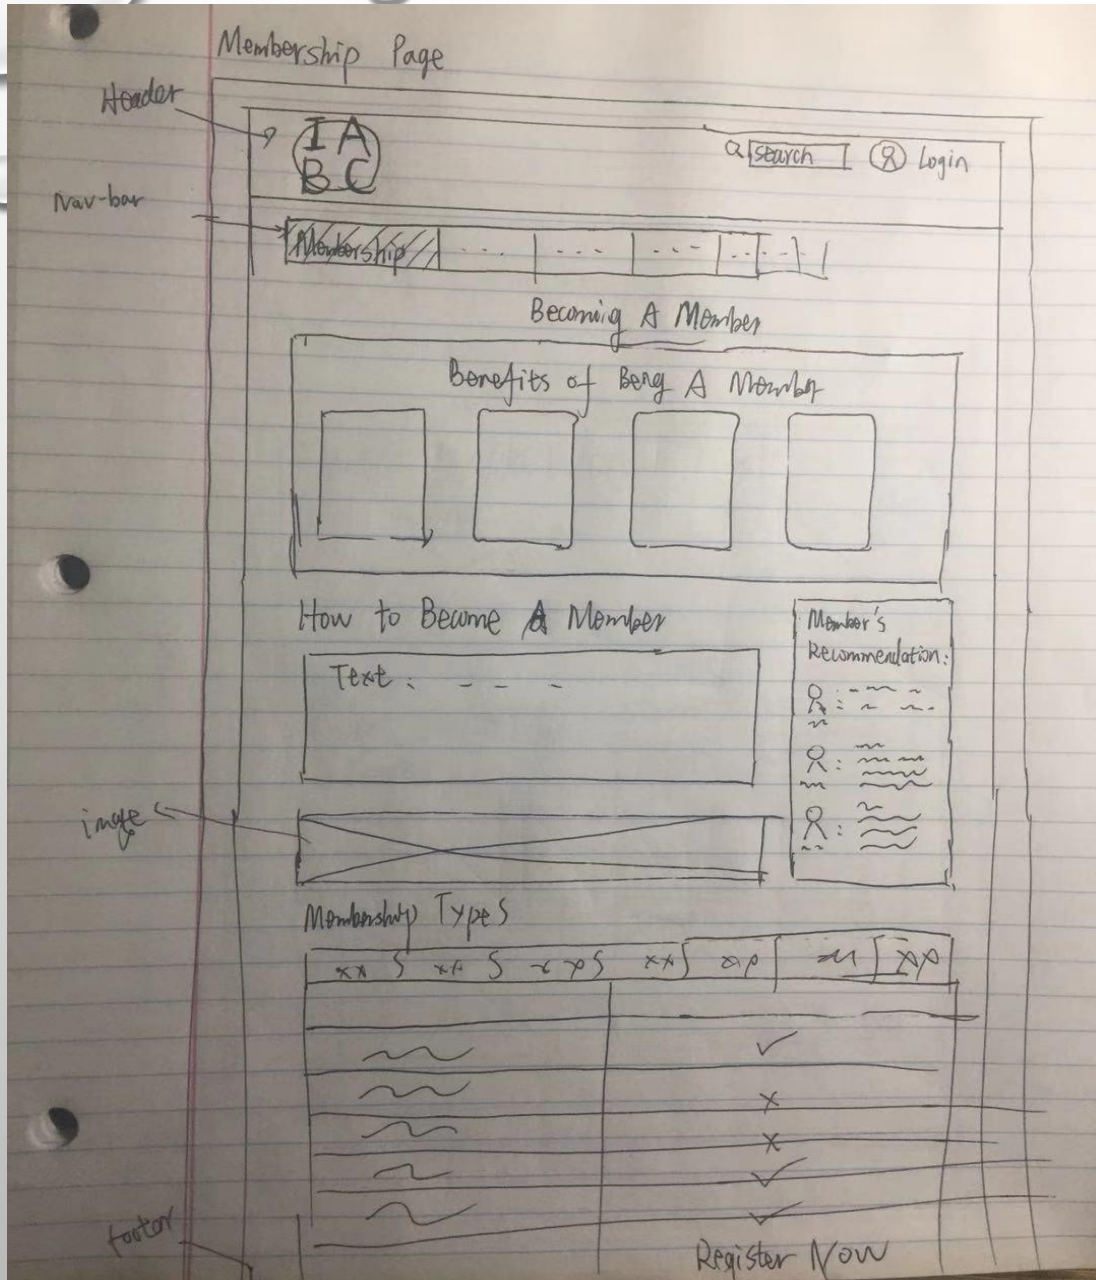

- An Introduction header
- A new event showing box
- Showing recent member activities
- Showing recent events
- News & Announcement part to notify important information.
- Some suggestion or message post from members, and show statistics of members
- The footer contain contact us ,social media link, and link to FAQ page.

Home Page(Feedback?)

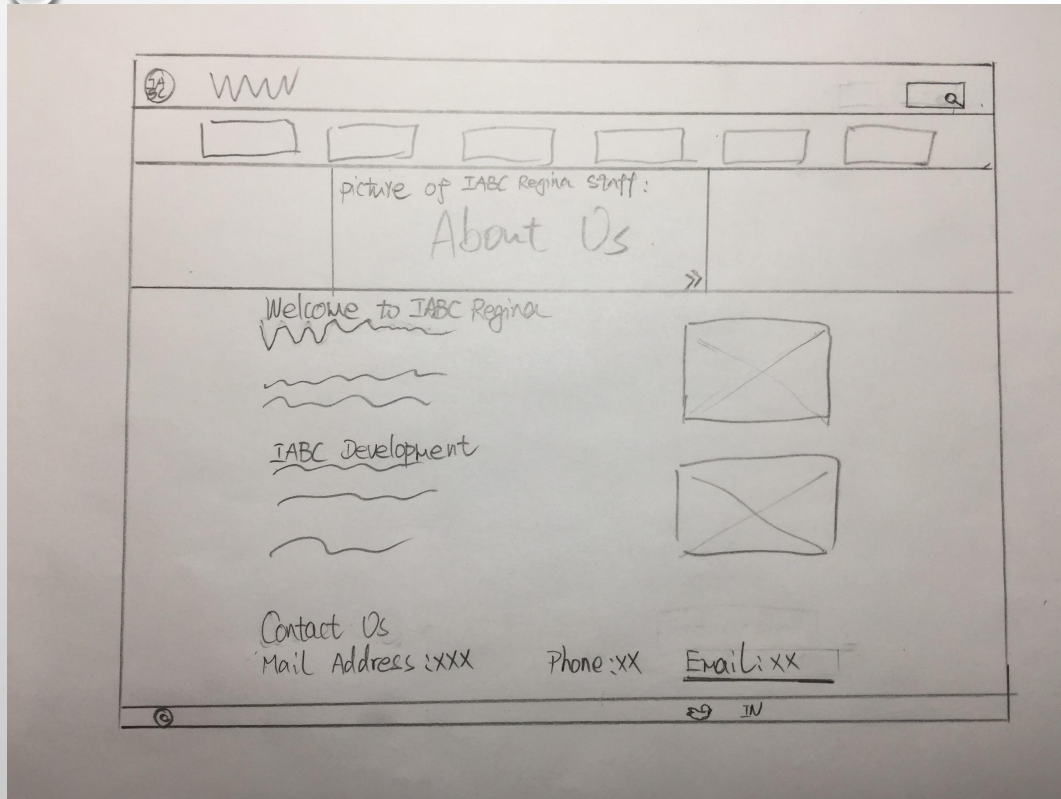

Membership

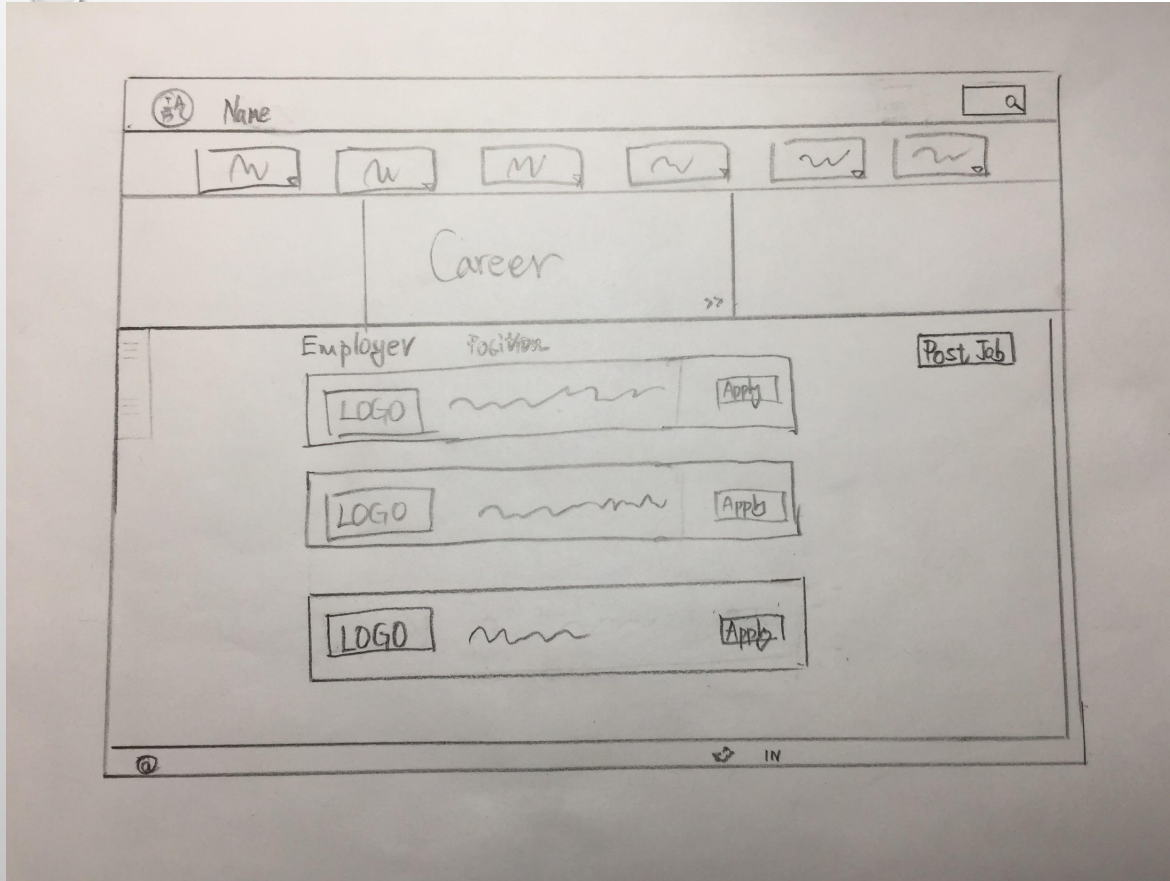

- Show the benefits of being a member.
- Guide of how to become a member.
- Members' recommendations.
- Table for different types of membership and features.

About Us

- Contact us will move into the About us section. User can click the button for sending an email directly - redirects to users personal mailbox.

Careers

- User can check the positions that are available for applying. The apply button will link to the organization career page.
- Organization staff can post, edit or delete a position. We will put constraints for posting jobs. Only allow organizations that sign up/sign in to post positions.

Blog

A hand-drawn wireframe of a web page for a blog. The page is titled "Blog" in the top right corner. The header includes a navigation bar with links: "logo", "Events", "Membership", "Volunteer", "Careers", "About us", "Blog", and "Contact us". Below the navigation bar is a large rectangular placeholder for a main image, marked with a large 'X'. The main content area displays three blog posts in a horizontal format. Each post has a placeholder for an image (marked with an 'X'), a "Date" field, a title (e.g., "Blog post 1"), a body of text represented by several lines of "e" characters, and a "more >" link. A "VIEW ALL >" link is positioned below the three posts. Below the posts is a section titled "POST A BLOG ON IABC Regina". This section contains a form with fields for "Name:", "e-mail:", and "Job Title:". Below these fields is a text area with a rich text editor toolbar containing icons for "I" (italic), "B" (bold), "U" (underline), "I" (insert link), and an image icon. A "SUBMIT" button is located at the bottom right of the form. The footer includes a "logo" and social media icons for "In" (LinkedIn) and "Twitter".

- The page lists the most recent blogs in a horizontal format.
- If someone wants to post a blog about industry related news they can add the information into the text box and hit submit for review.

Questionnaire

Q: Do you think our website includes all the information about IABC ? Anything important we need to add?

Q: How do you feel about the navigation? Do you think it will be easy for the user to find the information they want?

Q: Does each navigation option make sense?

Q: Do you want the twitter feed on every web page?

Q: Any other feedback?
